NARRATIVE REPORT	☐ INTERIM	FINAL				
1. Attempt by the Office of Logistics to terminate this contract are continuing as reported in Inspection Report #8. Approval to appropriate a negotiated overrun has been obtained in MPIC/TDS/D-831-67 memorandum dated						
2. The two incomplete prototypes have been delivered to MPIC with the instruction manual. Because of the financial and technical difficulties resulting in a termination of this contract prior to completion of the effort, only the minimum incentive award recommendation can be made. These deficiencies also are the cause for the unsatisfactory performance rating.
